Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ **Time Extension Request**

Specific years requested 2001,2002,2003

Is this a second request? ☒ No ☐ Yes Specific years requested.
(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ **Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).**

Specific ADR requested %, for the years .

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested %, for the years .

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

Due to prolonged contract negotiations with our previous hauler, we were unable to implement a fully automated three container collection program until May of 2001. At that time we changed service providers, significantly changing our curbside recycling efforts in addition to expanding our commercial recycling programs. The limited size of the containers and the inability of our previous hauler to provide additional containers prevented maximization of residential program. A pilot program was started with select commercial accounts, however the program was not as successful as hoped because the hauler did little to promote the program. Efforts were also hampered because during contract negotiations the City's focus was on program design for the new service contract versus outreach for the existing contract. Barriers will be overcome with the change in service provider.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The City estimates that it will take the length of time requested to fully implement all of the programs spelled out in our new solid waste franchise agreement with Burrtec Waste Industries. As previously mentioned Burrtec began providing collection services in May of 2001 after attempts to negotiate a new agreement with our previous hauler were unsuccessful after three years. Our new franchise agreement calls for specific performance outcomes by the hauler relative to both residential and commercial recycling. The hauler is evaluated on an annual basis, the first performance evaluator is the 50% diversion mark by May 2002. The three year period was asked for to evaluate the hauler's performance and to add/modify programs if the required 50% diversion was not met.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

Although the City has had a residential curbside recycling program since 1990 and the diversion has increased each year, it was felt that the implementation of the automated system would better assist us in meeting the 50% mandate. Other good faith efforts include pilot commercial recycling programs, residential greenwaste collection, composting workshops, and school recycling programs implemented in 1998. In addition to increasing the size of our recycling containers, we have also expanded the list of items that are accepted under our program. The recently negotiated agreement provides for increased public education opportunities including the distribution of a quarterly newsletter to all residents and businesses and community events. All loads will now be processed at the MRF to maximize the amount of waste diverted from landfills. Commercial recycling programs have been expanded under the terms of the agreement. The City's Garbage and Waste Matter ordinance was also recently amended requiring a minimum of 50% diversion for all C & D waste. The City also has implemented a recycled content procurement policy followed by all City departments. Recycling containers have been provided to all public buildings and City parks. The City grasscycles at all City parks and medians maintained by the City. Composting workshops are held throughout the summer months. A permanent facility for HHW collection is open each Saturday.

- 4. Provide any additional relevant information that supports the request.**

None.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.
